

# Identity Management Solutions

## Trusted Solutions for Secure Identity

- ▶ Driver's Licenses
- ▶ National Identity Cards
- ▶ Voter Registration Cards
- ▶ Government IDs

Z-Square Technology offers products and solutions to address today's demanding security requirements. Working globally with corporations and governments, we assess and address your secure credentialing needs while providing cutting edge, highly flexible, and cost-effective solutions.

Our core technology, AID™, provides a complete identity management solution along with the expertise needed to implement a 21<sup>st</sup> century secure credentialing system. Developed with today's technology to address the growing requirements of Motor Vehicle Departments and jurisdictions, AID™ provides an intuitive and comprehensive way to issue identification type cards.

Our secure credentialing solution provides a unique single interface that also works seamlessly with online, web, and kiosk environments offering our clients a powerful system that is capable of offering services to applicants through various channels.

### Some of our cutting-edge products include:

- AID™ – Secure Credentialing Solutions
- AID -IMS™ – Intelligent Modernization System
- AID -VIN™ – Verification and Investigative Network
- InteRoads™ – Automated Knowledge Testing System
- AIDOS Lite™ – Remote Enrollment System
- AIDOSv™ – Kiosk Solution
