

Automated Knowledge Testing Solutions

InteRoads Management Console Offers Many Powerful Features:

- ▶ Real-Time Reporting
- ▶ Valuable Training Services
- ▶ User-Friendly Control
- ▶ Secure Reliable Platform
- ▶ Accurate Data Management Technology
- ▶ Export and Share Data Reports
- ▶ Translation Options

InteRoads™ offers comprehensive knowledge testing features and is the market's most advanced, intuitive and efficient automated testing system. Powered with futuristic technology for testing drivers' skills, InteRoads provides a state-of-the-art and user-friendly interface for Administrators, Examiners, and End-Users.

InteRoads is a fully customizable, scalable, and enterprise-friendly automated testing solution to government departments and private businesses at an affordable cost. Our robust features allow you to manage all aspects of your testing requirements with ease. Administrators are able to receive instant status reports and notifications and retrieve test statistics. InteRoads is easily deployable and configurable to meet every organization's unique needs.
